MICHIGAN STATE UNIVERSITY
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2003

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Michigan State University (The University) and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

(2) *Indirect Costs*

Included as federal expenditures are indirect costs of \$35,812,046 which are based on rates negotiated with the cognizant agency.

(3) *Pass-through Funds*

Certain pass-through funds consist of commingled funds from federal and non federal sources. The commingled component cannot be separated to specify the individual funding sources and, therefore, the total amount is included in the schedule of federal expenditures.

(4) *Catalog of Federal Domestic Assistance (CFDA) Numbers*

All programs with identifiable CFDA numbers have been listed separately. Award numbers have been provided for all programs for which CFDA numbers were not available (99.) or, in the case of AID, the federal agency code was used.

(5) *Student Loan Funds*

The University administers several student loan programs for which funding to provide loans is from federal contributions and repayments of existing student loans (revolving funds). These loans, as listed below, have been excluded from the Schedule of Expenditures of Federal Awards. A summary of current year federal contributions and loans granted, and the various programs' fund balances are as follows:

	CFDA No.	Loans Granted	Loans Outstanding
Perkins	84.038	\$10,741,027	\$35,121,447
Human Medicine	93.342	63,405	1,162,120

**Independent Auditors' Report on Compliance and on Internal
Control Over Financial Reporting Based on an Audit of
Financial Statements Performed in Accordance with
*Government Auditing Standards***

The Board of Trustees
Michigan State University:

We have audited the basic financial statements of Michigan State University (the University) as of and for the year ended June 30, 2003 and have issued our report thereon dated August 29, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Trustees, management, and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
and Schedule of Expenditures of Federal Awards**

The Board of Trustees
Michigan State University:

Compliance

We have audited the compliance of Michigan State University (the University) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended June 30, 2003. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2003. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 03-1 and 03-2.

Internal Control Over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the University as of and for the year ended June 30, 2003 and have issued our report thereon dated August 29, 2003. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis, as required by OMB Circular A-133, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Trustees, management, and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

MICHIGAN STATE UNIVERSITY

Schedule of Findings and Questioned Costs

Year ended June 30, 2003

(3) Findings and Questioned Costs Relating to Federal Awards:

Finding 03-1

Grant Program/CFDA #: Student Financial Aid Cluster/Various

Requirement: *Reporting* – Institutions must report to the Department of Education student Pell payment data within 30 calendar days after the school makes a payment.

Finding: During the year, the Department of Education implemented a new Common Origination and Disbursement (COD) system with the intent that it accept Pell disbursement data in a timely manner. However, as acknowledged by the Department of Education during the year, the COD system was not able to accept reports within the required time frame. Therefore, though the University was prepared to submit information in a timely manner, it could not comply due to the failed COD system. The Department of Education is on record in stating that the University is *not* considered accountable for the reporting delays. Notwithstanding, due to the facts noted above, five out of thirty disbursements selected for test work were not reported with in the required 30 calendar days.

Questioned Costs: None

Systemic or Isolated: This instance of noncompliance is systemic.

Effect of Finding: The University could potentially lose federal funding due to non-compliance.

Recommendation: We recommend that the University work with the Department of Education to address this matter.
